PERSONAL PROJECTS

Online Food Ordering System (11/2022 - 01/2023)

- **GitHub Repository Link :** [Online-Food-Ordering-System](#)
- Online food ordering systems have been developed which make themselves beneficial for consumers and businesses to serve their favorite dishes to the customers.
- It reduces manual work to manage item categories, food, customer, and delivery address. It tracks all details about delivery address, order, and shopping cart.
- The objective of this project is to automate the business process, which means we have tried to computerize the various processes of the online food order system.
- Developed this entire website using HTML, CSS, JavaScript, Bootstrap 5, PHP, SQL, etc.

Personal Portfolio Website (08/2022 - 08/2022)

- **GitHub Repository Link:** [Personal Portfolio Website](#)
- **Portfolio Website Link:** [Shaikh Minhaj Portfolio](#)
- A personal portfolio website can go a long way in enhancing your professional career.
- This project is based on an existing personal visual identity about me.
- Developed this Portfolio website by using HTML, CSS, JavaScript, Bootstrap 5, etc.
